Thank you for purchasing the **200 ISEE Words to Know for Elementary Levels** from Test Innovators.

This list is intended to prepare your child or student for their once-a-year opportunity to take the official ISEE.

**This document includes 200 words with synonyms for definitions. Students will also benefit from making up and writing down a sentence using each new word.**

**Many students will already know some of the words in this list. Students can then make a plan to learn a certain number of new words each month or week. For example, if a student has 6 months before the exam, he or she can endeavor to learn 50 words a month - about 10 or 12 words a week. If a student has only 3 months before the test, he or she will have more like 25 words a week to study.\***

***\*However, students should not feel pressure to learn every word on this list. As tutors, we recommend that if a student has only a month or two to prepare before an exam that they focus their energies on learning strategies, completing timed sections, and building confidence.***

Students can also make flashcards using the words found here, or use the Test Innovators flashcards found on Quizlet: <https://quizlet.com/testinnovators/folders>.

**Any of these 200 words may appear on the official Lower Level ISEE.**
