ISEE MOCK TEST PROCTOR SCRIPT

INTRODUCTION

Welcome to today's mock test administration. You should have your practice test pdf in front of you, the included answer sheet next to it, a few number 2 pencils sharpened and ready, a black or blue ballpoint pen for the essay section, and nothing else on the table. Have a clock at the front of the room you're in so that you can keep track of time during the test.

The ISEE measures skills and abilities commonly used by students in school. Your test booklet contains four sections: Verbal Reasoning; Quantitative Reasoning; Reading Comprehension; and Mathematics Achievement. Because the ISEE is given to students in more than one grade, don't be surprised if you notice that some of the questions are very easy for you, or that others are very difficult.

Read the directions and samples printed at the beginning of each section carefully. Work as quickly as you can without becoming careless. Do not spend too much time on any question that is difficult for you to answer since all questions are scored equally. Instead, skip it and answer all of the questions that you can. Then, if you have time, return to any questions you may have skipped.

Please select the best choice for each question. On this test, there is no penalty for an incorrect answer.

Be sure to record all your answers on the answer sheet. Mark only one answer for each question, and make every mark heavy and dark.

If you decide to change one of your answers, be sure to erase the first mark completely. Don't worry if you find that there are more answer spaces on the answer sheet than there are questions in this booklet. As you work, make sure that the number of the question that you are answering matches the number on the answer sheet section that you are marking.

If you need to use the restroom during testing, raise your hand. Only one student may use the restroom at a time, so you may need to wait for a short period of time. You will not be able to make up any time missed if you use the restroom during testing, so try to wait for a break.

You may not have or use a cell phone, electronic device, or other restricted item until testing is over. Restricted items include, but are not limited to, scratch paper, calculators, calculator watches, rulers, protractors, compasses, dictionaries, and thesauruses. If you use any of these items during the exam, your exam will be invalidated.
